**Re: Nexus Communications Notice of Ex Parte Presentation – WC Docket No. 11-42,
CC Docket No. 96-45, and WC Docket No. 03-109**

Dear Ms. Dortch,

On June 13 and 14, the undersigned from Davis Wright Tremaine LLP, on behalf of Nexus Communications, Inc., participated in the Commission's workshop on Low Income database issues, which was concerned with issues raised in the Commission's March 4th Notice of Proposed Rulemaking on reform of the Lifeline and Link Up programs. The NPRM included a proposal to establish a nationwide certification database, on which this workshop was focused. The workshop was led by Kimberly Scardino, Cindy Spiers, and Jonathan Lechter of the Wireline Competition Bureau. Other Commission staff attended, including Zachary Katz, Legal Advisor for Wireline Communications, International and Internet Issues to Chairman Genachowski, Sharon Gillet, Chief, Wireline Competition Bureau, Trent Harkrader, Division Chief, Telecommunications Access Policy Division, and Carol Matthey, Deputy Bureau Chief of the Wireline Competition Bureau. In addition, many industry participants attended the workshop, as listed in an attachment to this letter.

At this workshop, Nexus discussed its belief that the proposed nationwide database and associated customer service representatives should be located in the United States. The USF fees that would support any new database are paid by American consumers, and should rightfully support American jobs. Nexus also strongly believes that any entity that provides Lifeline enrollment services to any Eligible Telecommunications Carrier ("ETC") should not be eligible to bid on the contract to become the administrator of the permanent database solution because it is a conflict of interest that Nexus does not feel can be adequately remedied and there are a sufficient number of qualified entities without such conflicts. Industry participants must be assured that their customers' sensitive data will be treated in a completely competitively neutral manner.

In addition, Nexus would like to make a correction to an ex parte filing it submitted on June 2, 2011. In footnote 1 of that notice, Nexus stated a condition of Nexus' designations in Georgia, New Jersey, and West Virginia is that Nexus waive the balance of its service activation fee not covered by Link Up funding. Nexus would like to correct that ex parte filing to note that this was also a condition of its designation in Mississippi. *Petition of Nexus Communications, Inc., For Designation as an Eligible Telecommunications Carrier in the State of Mississippi for the Limited Purpose of Offering Lifeline Service to Qualified Households*, Order, Docket No. 2009-UA-280 (MS PSC Oct. 5, 2010).

This letter is being filed electronically pursuant to section 1.1206 of the Commission's rules.

Respectfully submitted,

Danielle Frappier
